

SWN Interest Test Certificate

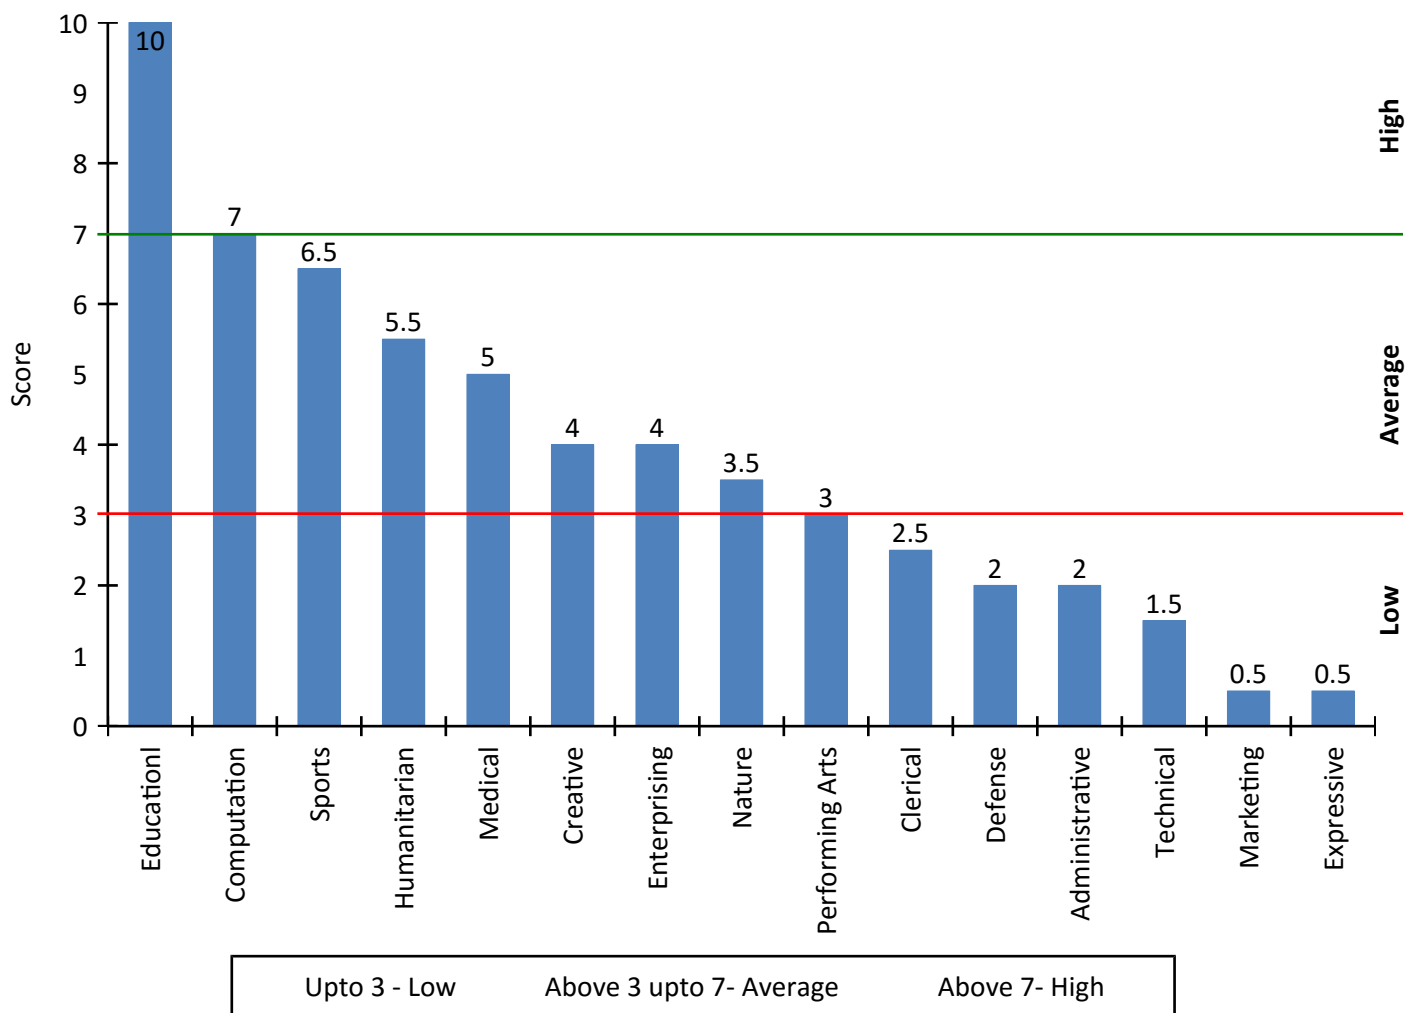

This is to certify that **Sumit Rahul** has completed test on **22 Dec 2016**

Report Id: INT-9

Duration: 00:57:22

Based on the answers given by you to the various statements/questions in the **SWN Interest Test**, the graph below broadly displays your prominent areas of interest.

Out of the 15 Interest Areas, the areas which fall within the High Band, are **Your Areas of Interest**. The Average Band may be considered next if not many areas fall in the High Band. However, knowledge of your interest areas does not necessarily mean that you have the proficiency and potential to do well in these areas. Doing well in a career depends on your aptitude and personality factors.

To get further clarity on whether your areas of interest are supported by your aptitude and personality, or if there are areas other than interest that you should pursue for career, it would be recommended that you take up the **SWN Aptitude** and **SWN Personality Tests** too.

In case of any further doubt, you may connect with the SWN Counsellors to seek advice.
